**4. PURPOSE OF HANDLING COMMISSIONS**

4.1 Purposes for which Handling Commissions are to be calculated include:

- 4.1.1 to provide sufficient funds to enable Depots as a group to recover prudently-incurred costs and expenses and to earn a fair pre-tax return;
- 4.1.2 to maintain a viable Depot industry;
- 4.1.3 to minimize the net cost of handling commissions on Manufacturers and end-use consumers and any cross-subsidization between different container streams;
- 4.1.4 to share the benefits from more efficient handling or processing technologies implemented through the co-operation of Manufacturers and Depots, or from significant additions of new registered containers or from significant increases in volumes of certain types of existing containers equitably between the Manufacturers and the Depots;
- 4.1.5 to support the accessibility of Albertans to Depots in rural areas;
- 4.1.6 to recognize that cost per container is higher for Depots that process lower container volumes than for depots that process higher container volumes; and
- 4.1.7 to maximize beverage container return rates.

4.2 The BCMB shall set a single Handling Commission for each Material Stream.

4.3 In addition to the Handling Commission set for each Material Stream, every Depot other than a Class D Depot shall be paid a Depot Viability Handling Commission of 1.5 cents for each of the first 1.5 million containers shipped to the CSA by that Depot in every calendar year commencing January 1, 2022, excepting refillable containers and regardless of whether there is a change in effective control of the Depot or a change of Permit Holder at the Depot location.

4.4 It is a breach of this By-law for a Permit Holder, Depot Operator, Depot Manager or any of their agents or employees to accept a container from another Depot and claim payment of a Depot Viability Handling Commission for shipping that container to the CSA in circumstances where a Depot Viability Handling Commission would not have been payable for that container had it been

shipped by the Depot at which the container was first presented for a refund. Such conduct is deemed to be conduct that seriously undermines the integrity of the beverage container management system.

**5. CHANGES TO HANDLING COMMISSIONS**

- 5.1 The BCMB may only set or change a Handling Commission in accordance with this By-law.
- 5.2 The BCMB may set an interim Handling Commission for a new container stream in accordance with this By-law.

- 5.4 The Board may refer the setting of Handling Commissions to an Arbitration Panel in accordance with this By-law.

**6. INTERIM HANDLING COMMISSIONS**

6.1 The following procedure applies to setting an Interim Handling Commission for a new container stream:

- 6.1.1 Following a request to the BCMB from a Manufacturer for a new container stream, the BCMB shall request that the Data Collection Agent collect relevant information from Manufacturers, Depots, the Collection System Agent and Collection Service Providers as applicable with respect to the new container stream. The Data Collection Agent shall obtain the necessary information in a confidential manner protecting the proprietary information of the Manufacturers and the Depots;
- 6.1.2 The BCMB shall request that the Data Collection Agent provide a report recommending an Interim Handling Commission;
- 6.1.3 Where the Data Collection Agent is of the opinion that it is appropriate for an Interim Handling Commission to be set without a Handling Commission Review the Data Collection Agent shall provide a report setting out the basis for that opinion and recommending an Interim Handling Commission;
- 6.1.4 Where the Data Collection Agent is of the opinion that a Handling Commission Review is required, the Data Collection Agent shall provide a report setting out the basis for that opinion;
- 6.1.5 Where the Data Collection Agent provides a report recommending an Interim Handling Commission to the BCMB, the BCMB shall provide a copy of that report to the Manufacturer who has requested the new container stream and to the Alberta Bottle Depot Association, the Collection System Agent and any affected Collection Service Providers, who may provide comments to the BCMB with respect to the report; and

- 6.1.6 An Interim Handling Commission may be set by the BCMB based on the report from the Data Collection Agent and any comments received with respect to the report.
- 6.2 The Interim Handling Commission shall apply to the new container stream effective immediately and shall remain in effect until the next Handling Commission Review unless the Board sets a new Interim Handling Commission.
- 6.3 If any party directly affected by the interim Handling Commission is not satisfied with the Interim Handling Commission, that party may apply to the Board to request that the Board review the Interim Handling Commission.
- 6.4 If no party applies to the Board for a review of the Interim Handling Commission, the Board shall be informed of the Interim Handling Commission at the next regularly scheduled Board Meeting.

- 7.2 The Board may initiate a Handling Commission Review if there has been a systemic change to the beverage container system that in the opinion of the Board warrants a Handling Commission Review.
- 7.3 For the purposes of section 7.2, a change in the average cost per container that is more than +/- 5% from the average cost per container established in accordance with the last Handling Commission Review may be considered evidence of a systemic change to the beverage container system.
- 7.4 The Board shall not direct a Handling Commission Review more than once within a 12-month period.
- 7.5 The Board shall adjust Handling Commissions on an annual basis between Handling Commission Reviews in accordance with Part 13 of this By-law.

- 13.8 Within 30 days of receipt of the second DCA Annual Update Report following a Handling Commission Review, the Participants entitled to agree to an extension of time between Handling Commission Reviews shall advise the BCMB whether they agree to extend the time for the next Handling Commission Review for a further one-year period.

If the difference between the annual average Handling Commission in the DCA Annual Update Report and the annual average Handling Commission determined during the last Handling Commission Review is +/- 5%, the Board shall be advised for the purpose of determining whether or not a Handling Commission Review is required.
- 13.13 If a Registered Participant discovers an error in the most recent DCA HCR Report or in an Annual Update Report issued following that DCA HCR Report, and the Board has already approved Handling Commissions based on that Report, the Registered Participant shall give written notice of the alleged error to the BCMB within a reasonable time from the discovery. The BCMB shall provide the DCA and any other Registered Participants with notice of the alleged error.
